25 OCTOBER 1997

DIVISION 1 & 2 ROUTE INSTRUCTIONS

Timing: Eastern Standard Time will apply for the duration of the event. "Daylight Saving" time will be ignored.

Count your pages: These route instructions should consist of 10 numbered pages, not including this one, plus the supplied maps: Gondwanaland 1, Gondwanaland 2 and DAD 1. It is your responsibility to ensure you have a complete set.

Late Running Time: Is 120 minutes for Division 1 (To end of Section 5)
Then 100 minutes for Division 2 (Section 6 to Section 11)

Crew etiquette: Please respect the locals by travelling quietly where needed, particularly on the average speed section, around Rushworth and at the finish. **Please slow down for oncoming traffic and keep left on crests on the average speed section (s).**

Quiet Zones nominated in the instructions require low beam lights and strictly less than 60 km/hr.

If you need to withdraw from the event, or cut and run, it is vital that you advise the **official at the control** of the section that you are in, of your intentions. It is unforgivable for organisers to leave crews out there lost, crashed or broken down. It is equally unforgivable for crews to have sweep crews driving around looking for someone who deliberately bailed out hours ago. Advising the officials at the event finish in most cases is not enough.

Service: Please support the Rushworth businesses by concentrating your fuel and food purchases at these establishments. Service details are as printed in the Further Instructions.

Additional abbreviations:
MR = Main Road; MT = Main Track
