Route Instructions

1981 SHAMATEUR 3 RALLY

ROUTE INSTRUCTIONS

The directing team welcomes you to the 1981 Shamateur III Rally. This year, the event differs somewhat to previous Shamateurs as, apart from being a round of the Shamateur Series, it is also a round of the Inter-Club Challenge therefore your standard of navigation will need to be a bit higher. For the novices, don't let this be a deterrent as it will prove to be a good exercise in different types of navigation and hopefully provide you with a few skills for the future.

We must point out that the geographical characteristics of the area provide a few long drops, and also some areas of different road surfaces.

Please take care and heed the cautions in the route instructions as well as those marked on the road. They are there for your benefit.

Once again, we hope you have a good event, please drive carefully and we'll see you at the finish.
