RESULTS      2nd May 1992

We would like to thank all of you for competing in the first GOLD RUSH TRIAL and by the positive feed back that we received on the night it may not be the last.

Our aim for the event was to have the majority of the field finishing within late running time but still challenging for the more experienced crews. The results are proof of that being achieved.

One comment that should be made is that the B Grade crews are not having their problems out on the road but when they are plotting the route. A common problem was that directions of entry and exit were not being plotted and so crews were going to be looking for roads that did not exist in the forest. So please read your instructions carefully and you will have a more enjoyable night looking for the correct roads.

The presentation will be held at the Bendigo Car Clubs meeting on Thursday 11th June 1992, all crews are welcome to attend. At this stage it will be held at the Maiden Gully Club Rooms - Please contact us prior to the meeting in case of any change to the venue.
